

SHED-1 SHED-2

Poly weather shield for equipment

SHED-1

Application

The Advantage pump shed is a poly enclosure to provide protection for pumps and other electronic devices.

With our poly weather shield enclosure, you also have the option of adding access ports on the sides as well as a clear vinyl strip door for the front. See code options below.

SHED-1: Shed with an inlet and outlet port for 1 pump

SHED-2: Shed with inlet and outlet ports for 2 pumps

Corrosion resistant plastic

Options:

- C Controller shed configuration with open front and bottom
- P Inside poly board for controller mounting
- S Side access popouts
- V Clear vinyl strip door
- W Stainless steel wall mounting bracket
