

TRAN-P4

Economy Transfer Pump

Key Features

- 5 GPM Max Flow
- 40 PSI Max Pressure
- 115 VAC Input Voltage
- Santoprene Diaphragm
- Viton Checks
- Polypropylene Pump Body
- 1/2" Hose Barb Connections

Application

Advantage Controls TRAN-P4 pumps have a compact design, low cost and excellent self-priming capabilities for chemical transfer.

The TRAN-P4 can run dry without damage and handle liquids up to 130° F (54° C). No metal comes in contact with liquid being pumped. Ball bearing drive throughout pump and motor assures longer pump life and quiet operation.
