Fall Highlights 2020

## INDUSTRY APPRECIATION WEEK

Jennifer Hall was the lucky winner of a number of items in a contest on social media, hosted by the Port of Muskogee to bring awareness to local manufacturers. Oct. 2<sup>nd</sup>

Muskogee Mayor Marlon Coleman declared the week of Sept. 28-Oct. 2 as “Industry Appreciation Week” as a way of honoring local companies.

In conjunction with National Manufacturing Month, members of Oklahoma Governor Stitt’s office toured Advantage Controls, that in itself being a huge honor!

The Business and Industry Banquet was canceled this year due to the COVID-19 crisis, but it’s hosts want to make sure that Muskogee’s manufacturers and their employees know that they are appreciated. Muskogee has many companies that are also active in the community by giving their time to local nonprofits, serving on local boards and committees, and volunteering in education, ensuring that Muskogee continues to grow and prosper.

## 2020 SPIRIT AWARD WINNER

Jerry Morris was voted from among this year’s Advantage Controls MVPs to be the winner of the 2020 Spirit Award!

Jerry was born & raised in Muskogee and has been described as fun, crazy, compassionate, and someone who loves their momma. He can always be counted on to help friends, family, and strangers in need – whether that’s using his skills and talents to assist with technical projects or paying the bills of family members in need. We all face challenges in our lives, but our Spirit Award winner has bravely overcome more than his share of personal setbacks to get where he’s at today.

According to those who know him best, he has never taken a vacation, but once hitchhiked from Florida back home to Oklahoma after working a remote job. Jerry also claims to be scared of heights and has never been on a plane, stating that “If God wanted us to fly, He would have given us wings” – Hawaii might be out of the picture for his all-expense paid vacation!

As part of our UL panel shop presentation, Advantage Controls is required to have at least one person on site who passed the UL-508A certification training. We not only had one person who passed this difficult test, but three! Congratulations to our engineers, Anthony Ballew (left), Jackson Webb (right), and Chris Clark!
